“STRIVING TO KEEP THE FUTURE SAFE”
LHR’s Tethered Tool® Kits are comprehensive kits that offer 100% tie-off protection.

Tethering the tools allows those working at heights to tie-off their tools. When used properly, the tools should never be dropped - preventing a hazardous situation and keeping those working below safe.

The tools are tethered with strong nylon lanyards and come with either the standard aluminum alloy snap hooks or the optional stainless steel snap hooks.
